Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

This is the first action relating to serial application number 10/791,366 filed 03-01-2004.

Claims 1-20 are currently pending.

Drawings

1. The examiner has accepted the drawing filed with this application as formal drawing.

Specification

2. The disclosure is objected to because of the following informalities: The specification is missing the following sub-titles and the respective paragraphs:

(A) BACKGROUND OF THE INVENTION.

(1) Field of the Invention.

(B) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.

(C) BRIEF SUMMARY OF THE INVENTION.

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

(a) TITLE OF THE INVENTION.

(b) CROSS-REFERENCE TO RELATED APPLICATIONS.

(c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.

(d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.

(e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.

(f) BACKGROUND OF THE INVENTION.

(1) Field of the Invention.

(2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.

(g) BRIEF SUMMARY OF THE INVENTION.

(h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).

(i) DETAILED DESCRIPTION OF THE INVENTION.

(j) CLAIM OR CLAIMS (commencing on a separate sheet).

(k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).

(l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A

“Sequence Listing” is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required “Sequence Listing” is not submitted as an electronic document on compact disc).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1, 8 and 14, the phrase ‘intended for use is unclear because the phrase is not a positive limitation and does not carry any patentable weight. Therefore, it is not clear if the limitation after the phrase is part of the claimed invention.

In claims 5 and 8, the phrase “maybe” render the indeed scope of the claim unclear because the phrase is not a positive limitation of the claim and it is not clear if the limitation after the phrase is part of the claimed invention.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1-4, 9-11 and 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishimori et al. (6,454,041). Ishimori et al. discloses a crankshaft power take of system comprising an appliance (3) for use in connecting a mower the to an accessory (27), a transmission (see 7) utilizing a crank shaft (e) of an engine (3) to operate the accessory (27).

In claims 2-4 and 9-11, note the appliance is a lawn mower (15) and the accessory is a blower/vacuum assembly (25/27).

In claims 14-17, the method steps are inherently included in the utilization of Ishimori et al. device.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 5, 8 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishimori et al. in view of Bass (6,644,003). Ishimori et al. does not disclose the transmission includes a plurality of pulleys and at least a belt entrained on the pulleys.

Art Unit: 3682

Bass discloses a vacuum and mulching system transmission comprises a plurality of pulleys (fig. 5), a belt (46/48) carried by the pulleys, wherein the belt is manipulated to be tensioned to operate the accessory. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to modify the device of Ishimori et al so that the transmission comprises a plurality of pulleys in view of Bass in order to reduce the weight and cost of the system.

Allowable Subject Matter

9. Claims 6-7, 12-13 and 19-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Saitoh et al. (4,996,829), Breeded (5,485,715), Parkes et al. (5,778,648), Strikbiak, Jr. (4,104,812), Minoura et al. (5,224,327), Umemoto et al. (6,449,933) and Vicendese et al. (3,945,176) disclose a lawn mower with an accessory. Gregory (2,669,078) discloses an accessory. Lohr (5,377,774), Bent et al. (4,409,779) and Kamlukin (2,927,571) disclose garden machine with a tensioning mechanism.
